LITS Certificate
Game Developer
September 2020

A responsible, self-motivated, and active student of the IT department at TUKE is looking for first back-end development role. I'm passionate about new technologies, social media, and image processing. I'm a quick learner, a strong team player, and always ready to tackle new challenges.

WORK EXPERIENCE

Manager of the 5-member team start-up   **April 2024 - Present**

S&S Creation

- Led the development and launch of innovative digital solutions
- Co-led the development of an innovative "Magic Mirror" with integrated AI and camera technology, aimed at detecting potential health issues in real-time.
- Presented the project at university tech expos, receiving positive feedback and interest from industry professionals.

Full Stack Developer   **April 2024 - Present**

S&S Creation

- **Node.js**: Developed and maintained the server-side logic, ensuring efficient data processing and communication between the AI models and the front-end interface.
- **Full-Stack Development**: Designed and built both front-end and back-end components, creating a seamless user experience and robust data management system.

BEST Projects

- ➢ **"Totally Not A Malware" – funny Python/Tkinter app with email (SMTP) and basic GUI logic.**
- ➢ **"MadPan" - Minecraft hotel plugin (v1.12.2) in Java using Spigot API – lets players rent and manage hotel rooms.**
- ➢ **"Guess-A-Number" - React Native mobile game – guess a number, manage state, and get feedback.**
